this book grew out of a series of articles about paperback distribution which i wrote and  
which publishers weekly published in march and april of 1975 the idea for the series  
came from lila freilicher assistant editor of p and to her i wish to express special thanks  
other pw colleagues offered help criticism and encouragement when my enthusiasm was  
flagging among them arnold w ehrlich chandler b grannis jean norrington and miriam  
phelps many people in the paperback industry in granting me interviews and behind the  
scenes scenarios were generous with their time and their counsel i want to thank  
particularly stanley budner ronald busch edward l butler joe byrne ross claiborne alun  
davies robert fair de graff john dessauer robert g diforio oscar dystel sidney graedon dr

snyder carl w tobey george wright and francis zinni whatever collective wisdom is in this  
book is theirs the mistakes of course are mine

this book provides a rigorous course in the calculus of functions of a real variable its  
gentle approach particularly in its early chapters makes it especially suitable for students  
who are not headed for graduate school but for those who are this book also provides  
the opportunity to engage in a penetrating study of real analysis the companion onscreen  
version of this text contains hundreds of links to alternative approaches more complete  
explanations and solutions to exercises links that make it more friendly than any printed  
book could be in addition there are links to a wealth of optional material that an

instructor can select for a more advanced course and that students can use as a reference long after their first course has ended the on screen version also provides exercises that can be worked interactively with the help of the computer algebra systems that are bundled with scientific notebook
